With Schrader®  
AirAware™  
TPMS Sensors

Schrader® AirAware™ TPMS sensors meet original-equipment quality and performance standards. TPMS sensors measure tire pressure and transmit this information via radio frequencies to the vehicle's electronic control unit (ECU). Some Schrader TPMS sensors also measure tire temperature.

Schrader replacement sensors are made to fit specific applications based on vehicle make, model and year. Schrader currently offers 25 replacement sensors for OEM applications. Additional sensors will be added as they become available.
