With Schrader®
AirAware™ TPMS
Service Packs and
Accessories

Original-equipment specifications require that new grommets, nuts, valve cores and caps be installed every time a tire equipped with TPMS is removed and replaced on a wheel rim. Schrader® has assembled these items into convenient service packs that are tailored to specific vehicle makes, models and years. See the AirAware™ application chart for vehicle specific information.

Service packs packaged 50 per master carton

- 20002 service pack for Ford® with Schrader sensor
- 20003 service pack for GM® and Chrysler® with Schrader sensor
- 20004 service pack for GM with Schrader sensor
- 20005 service pack for Nissan® with Schrader sensor
- 20006 service pack for Hummer® and GM with Schrader sensor
- 20007 service pack for Nissan with Schrader sensor
- 20008 service pack for GM with Schrader rubber snap-in valve sensor

Schrader sensors and service pack sealing components are highly engineered OE validated TPMS components. Schrader can not endorse the use of non-OE validated parts. Schrader has not validated testing of the compatibility of any other product for fit and suitability of use. Always follow manufacturers' service guidelines.

Schrader also offers two AirAware Service Pack Assortments that contain the most popular vehicle-specific service packs in a handy plastic box.

20397 assortment with 10 each of six service packs (20002 – 20007) for Schrader sensors, 50 plastic caps and 50 cores

20597 assortment with 10 each of six service packs (20002 – 20007) for Schrader sensors, one service pack for Pacific sensors, one service pack for Siemens sensors, two service packs for TRW sensors, 50 plastic caps and 50 cores

Accessory and loose part items

20055 nickel-plated valve cores – 100/box

20195 plastic sealing valve caps – 25/box

20395 plastic sealing valve caps – 100/box

20495 metal sealing valve caps – 100/box

CAUTION: Always use new grommets, nuts, valve caps and valve cores when performing any tire service. Use nickel-plated electroless valve cores with aluminum valve stems. Refer to manufacturer's specifications for proper torque requirements when replacing nuts and valve cores
